William Sheppard Is 79.

A score of relatives and life-long friends of William Sheppard, of Washington Square, surprised him by unexpectedly visiting him at his home early in the afternoon of Jan. 12, to celebrate the 79th anniversary of his birthday.

The afternoon was pleasantly spent in social felicities, it being generally agreed among those present that the condition of Mr. Sheppard, physically and mentally, indicate that he may probably be able to celebrate many more happy birthdays Reminiscences of times and cutoms of a half century or more ago were inorder.

Refreshments were served, and the visitors left with many kind congratulations, and pleasant wishes as to repeating the experience many more times in the years to come.

Those present were: Mr. and Mrs. William Sheppard, Charles W. Sheppard and son William, Mrs Elizabeth Rile, Mrs. Ezra H. Brown, Rachel H. Brown, Rev. Mr. Hannah, of all Saints church Norristown; Mr. and Mrs. Isaac Sheppard, Isaac Walker, Lila Walker, Miss Hannah Styer, Mrs. Isaac Richards, Edwin Conard, John G. W. Miller, Ellwood Roberts and wife, Mrs. Samuel Livezey, Miss Sarah Duffield, Miss Mary O'Donnell.

Mr. Sheppard is well known to the reading public of Norristown and vicinity, where h ehas resided, for his fondness for social and literary pursuits, being a poet himself.

He was born in Plymouth township, January 12, 1842, and followed farming successfully for most of his life, retiring from that pursuit a few years ago. During the Civil war when he had reached the age of 21 years, he, though a Friend and conscientiously opposed to bearing arms, was drafted into the military service, but had no occasion to seek relief, as the medical examination indicated that he was physically unable to bear the hardships of a soldier's life, and he remained at home.

Mr. Sheppard has been twice married, his first wife being Sarah Butcher the mother of his children, who died some years ago. His present wife was Eliza Tarr.

Ambler High School Girls Win Again

Ppper Darby high school girls, like their predecessors, went down to defeat at the hands of the Ambler high school girls in the first basketball game of the new year. At the end of the second period the score stood Ambler 24, Upper Darby 18. It was a wonderful game despite the small local floor, and Miss Rae Flds, of Beechwood school, who referred the contest had her hands full watching the many plays that resulted. There was not an idle moment during the 40 minutes of play and Mis sFild's decisions met with the approval of both players and spectators, despite the fact that she was obliged to call a number of fouls on both sides. From the interest taken by the large number of pupils of the Ambler school it is evident that it will be a step in the right direction by the board of directors to hasten the day when Ambler, like other towns, can boost of a fine auditorium and gymnasium, where such athletic events as basket ball may be played and enjoyed by the pupils, who are proud of both the boys' and girls' teams which have not gone down to defeat this season thus far.

But to get back to the game, it was splendidly played by the girls of both teams. The local team, however, played the better, and compelled the visitors to go at top speed in order to keep the score down. In center position Miss Griffith was a tower of strength, and without a doubt played her opponent, Miss Maguire, to a stand still. Miss Acuff was also an able assistant to Miss Griffith, and it was her wonderful playing throughout the entire contest that kept the ball in Ambler's field, which enabled Miss Scudder and Miss Matz to score the 24 points that returned Ambler a winner. Time and again both Miss Scudder and Miss Matz set the crowd cheering by their wonderful goal shooting. In the positions of guards were found Miss Gelberth and Miss Fisher, and much credit is due them for them any misshots for the basket made by Miss Wardle and Miss Britton of the visitors. Despite the fact that they had the roughest position to play, both Miss Gelberth and Miss Fisher did not hesitate, but entered every play with the one object that of keeping their opponent from shooting the ball through the basket, and that they succeeded is evidenced by the score. The line up is.

Ambler	Positions	Up. Darby
Scudder,	Forward	Spaeth
Matz	Forward	Bache
Griffith	Centre	Maguire
Acuff	Side centre	Benzing
Gelberth	Guard	Wardle
Fisher	Guard	Britton

Points scored were: Miss Scudder, 22; Miss Matz 2; Miss Spaeth, 7; Miss Bache, 11.

Serious Fire in the Whitemarsh Valley

Fire of undetermined origin Sunday night destroyed the farm stables on the former Williams farm the country estate of George D. Weidner, in the Whitemarsh valley. The loss is estimated conservatively to be $53,000.

Shortly before 7 o'clock William Tomlinson, outside night watchman at the estate, saw flames coming from the main stable building. He hastened to the cottage of Edward Stanford, farm manager, about a quarter of a mile from the burned stables. The manager spread the alarm, and then with the watchman rushed back to the blazing structure to save Mr. Weidner's prize herd of Jersey cows and 18 valuable farm byers in the barn.

The two men were able to lead the entire herd of 18 head to safety and to free all the horses. With the assistance of employes on the estate they then attempted to save valuable farm machinery and large stores of feed and grain in the barn. The fire had gained such headway, however, they were driven from their work, and the stores were consumed with the barn.

The following fire companies responded: Ambler, Jenkintown and Conshohocken. By the time the firemen arrived the barn was blazing so fiercely all efforts to combat the flames were futile, and the firemen devoted their attention to helping save the breeding stables, about a third of a mile from the main barn.

A twenty-mile wind made their work difficult, but at a late hour the fire was confined to the building in which it originated. The flames illuminated the sky for many miles around, and a throng of automobilists, estimated at from 4000 to 6000, was drawn to the scene.

The building burned consisted of a main structure, 200 by 100 feet, and a wing, 100 by 80 feet.

Mr. and Mrs. Widener now are in London. They sailed o the Olympic two weeks ago.

adv JOHN L. & MARY C. DOAN.

—Fifty-three divorce suits were begun in Bucks county in 1920, twice as many as ever before 1919.

[illegible] most effective thing a [illegible] can do right now to further the cause of peace is to write protests to the Congressman against the huge appropriations being expended on the army and navy. In this work it is found that letters from individuals are much more effective, and carry more weight with a congressman or senator than resolutions passed by a large group. There is many a man in congress who is ready to cut down the appropriations and to listen to proposals for disarmament, but he wants to hear from the country to know whether he is going to be backed if he shall vote for these measures. We know from various of the leaders that this sort of work is especially important just at this time. Write to your congressmen and senators. To Henry W. Watson, congressman from Montgomery and Bucks counties, to Bois Penrose, to Frank W. Mondell, Republican floor leader, and to James W. Good, chairman of the house committee on appropriations.

There are two things that we might bring before all. One is this proposal to agree with Britain and Japan at once on the question of a "Naval Holiday." There is a great deal of sentiment in favor of it, and we should stress it all we can, and right now. The second is this very important proposal so strongly urged by Major General Tasker H. Bliss, representative of the U. S. on the supreme war council and member of the American peace commission. He said recently, "Those of you are mistaken who may think that there can be an enduring and effective association of the nations for the maintenance of peace so long as those nations are armed to the teeth, solely against each other, and those are mistaken who think that so long as the present military system exist there can be any successful international court of arbitration. Why should not the United States take the lead in a definite proposal and demand for a reasonable limitation of armaments?" Who can do it better than we?

According to an expert in the United States bureau of standards United States appropriations for 1920 were First, past wars, 68 per cent; second, future wars, 25 per cent; civil departments, 3 per cent, fourth, public works, 3 per cent; fifth, education and science 1 per cent.

Think of it, people of Ambler and vicinity, 93 per cent. of Uncle Sam's money for the year 1920 went for war. 1 per cent of every dollar went for education and the improvement of the public health!

Without anybody in the country realizing it, the United States seems to have become obsessed with militarism to the exclusion of the normal, balanced interests of the people.

The army and navy have developed a "technique" for adroity extracting from congress huge appropriations denied to all other departments.

The national budget of the year 1920 represented a tax of $50 upon every man, woman and child in the United States, and of this amount $46.50 goes for war and militarism.

Now on top of it Congressman Julius Kahn, of California, generally proposes a system of universal military training which will cost the country, according to Congressman Mondell, the Republican floor leader and watchdog of the treasury, in the neighborhood of one billion dollars a year.

Now who is going to help? Are you, who have lost your heart's greatest treasure in this last terrible war?

Let every sane person stop and think "I am my brother's keeper."

L. L. FOULKE.

Catherine is the daughter of Mrs. Kelly, who says that the girl is under 18. It is said that she gave the age of 18 at Elkton, when she and Deordio were married.

Year 1920 in Orphans' Court.

If anyone tries to tell you Leap Year was a failure quote him the following data:

During 1920, in spite of the fact that many eligible males are still roaming at large, 1546 couples were united in matrimonial strife, comparing most favorably with the biggest year in history, 1917, when 1624 decided to marry.

These startling statistics were given out, recently by Harry W. Akins chief of the Marriage License bureau.

During the time of the U. S. draft, Mr. Akins was kept extremely busy, but in 1918 the crop of marriages dropped from 1624 of 1194. In 1919, there was a boom and 1442 couples took out licenses.

Last year was also a record year for the total amount of estates audited and distributed by Judge F. Solly, in orphans' court. More than twenty millions of dollars in property were disposed of by Judge Solly, topping by many millions every year since 1905 when tewnty six millions was the record.

It is true that one of Doylestown's oldest manufacturing plants is working only five days a week and has cut its force for the first time in many years. All the plants report that no reduction in wages has gone into effect as yet, but employers indicate that wages will have to be reduced before normal times are reached again.

LANSDALE HARD HIT

Over in Montgomery county, in Lansdale, the industrial situation is much worse than in Doylestown. It is estimated that over 400 persons have been affected by the industrial depression and are either out of work altogether or are working part time. Wages have been reduced at some of the Lansdale plants, including 20 percent. reduction at the Abram Cox Stove company, agreed to by the employes.

It is estimated that the Doylestown residents, employes of the plants working part time or who have been laid off altogether, reduce the revenue that comes into the borough approximately $3500 every week.

—Commissioners of Montgomery and Chester counties decided to construct a new bridge next summer over the Schuylkill river between Royersford and Spring City.

—For the second time within nine months, Rev. Dr. W. F. Teel, President of Schuylkill Seminary, Reading, fractured his left arm in a fall on an icy pavement.

Prominent Speakers to Be at the Annual Farm Bureau Meeting

Harley H. Rogers, agriculturalist of the Erie Railway Lines, will be one of the principal speakers at the annual farm bureau meeting to be held in the court house, Norristown, on Thursday January 20. Dr. E. L. Nixon, State college extension pathologist, will also be present with a set of very exclusive slides on the control of plant disease.

The meeting will convene at 10 o'clock in the afternoon. At the morning session the reports of the officers will be read and in addition there will be discussions on the progress of some of the farm bureau activities. Wm. H. Landis, of East Greenville, will discuss the Bull Club work; Charles Wismer, of Gratersford, will discuss the accredited herd plan. E. P. Bechtel, of Trappe, will discuss the purchase of pure bred cattle; Clarence Platt, West Point, will discuss the results of poultry culling; John Park, Harsham, will discuss the value of potatoe spraying demonstrations.

The farm bureau program for 1921 will be presented by the county agent A. K. Rothenberger, and discussed in detail by F. P. Weaver, director of county agent work in Pennsylvania. In the afternoon Dr. Nixon will give his popular illustrated talk on "Potato Montality." Dr. Nixon has probably done more to reduce potato deseases and to increase yields in Pennsylvania than any other one man. Mr. Rogers, of Waverly, N. Y., will speak on the value and result of modern farm organizations.

Every farmer in the county is invited and even urged to attend this meeting.

Subscribers for Home for Ill and Jobless.

Archbishop Dougherty has given $10,000 toward the purchase of a farm in Montgomery county to provide a home for convalescent and unemployed men.

It is on Whitehall road, one-half mile north of Germantown pike. The farm will be under the direction of Miss Grace Town, superintendent of the St. Ignatius House, 2111 Vine St. Philadelphia. It has modern equipment and the plan is to make the produce pay the expenses.

The purchase price is $25,000 and about $10,000 is still to be raised. M. P. Quinn and Rev. F. X. Wastl, of thec Curch of St. John the Evangelist, have subscribed $1,000 each.

Game Protector Fretz Receives 93 Rabbits.

Ten crates of rabbits from Hutchinson, Kansas, were received on Jan. 3, by Game Protector Warren Fretz, of Doylestown.

95 rabbits out of the 120 came through in good condition. This is considered satisfactory considering they were in transit since December 29th. The rabbits run larger than the previous shipment.

They are particularly all ditributed in districts other than those in which the others were placed.

Up to date Mr. Fretz has received 216 live rabbits. They were distributed in 105 different points. The plan is to get new blood into the rabbit stock in the county.

Real Estate Records for Bucks Co. Broken.

Among other records broken at the Bucks county court house during 1920, was a new mark established by the office of recorder of deeds.

Dockets in the recorder's office show that during 1920 more real estate changes were made than in any previous years. During the year that ended January 3, 1921 a total fo 4265 deed were recorded. In the pervious year the total was 3594, making an increase in 1920 of 671. Records for the past few years are as follows: 1915 2091: 1916, 1850; 1917, 2145; 1918 2522.

Records show that during 1920 the number of new mortgages entered were 2040. This is an increase of 223.

Buy Melrose Park House.

Smullen & Barry have sold for H. P. Orlemann to Thomas K. Read the residence 37 Park avenue, Melrose Park, lot 90 by 200 feet. It contains fourteen rooms, including three baths, library and billard room, and was held for sale at $32,000.

Prefers Bond sale to Tax Boost.

Roy A. Hatfield, president of the Montgomery county commissioners, states that an increase in the county tax rate for 1921, for the purpose of carrying out the building of roads and bridges, and maintaining them, is "insufficient and unnecessary." He declared that the report of an increase of one mill is unfounded. A bond issue of sufficient size to cover the cost of the improvements in his opinion is the best solution of the problem. Moneys received by the county will total about $1,300,000 this year, and an increase of one mill would net but $140,000, which would be too small an amount. The tax rate will be set next month.

Conshohocken Teacher Weds.

An impromptu reception was held in the Conshohocken public schools on Jan. 5 when it became known that Miss Ella Davis, teacher of penmanship, had become a bride during the holiday season. She was congatulated by teachers and students. The wedding took place in Washington, D. C. The groom is Stephen Johnson, of St. Louis, Mo.

The wedding was a surprise to all but the immediate family. Mrs. Johnson will reside in Conshohocken, where she has taught for a number of years. She will continue teaching. Six married women are now employed as teachens in the Conshohocken public schools, and the recently elected school clerk and substitute teacher, who was Miss Fanny Brownback, gave the school a surprise by quietly being married to John Gallagher, of Harmonville, a few days after she was elected to the position. The engagement of Miss Martha Slingluff, a sixth grade teacher to Henry Barnshaw has just been announced.

Sheep Claims High.

A number of sheep were killed by dogs in the Upper Merion district recently and bills have been rendered to the Montgomery county authorities for the sheep by the farmers for prices ranging from $22 to $25 per head for the dead sheep.

More modest demands were made asking $10 per sheep.

Controller Horace Smedley, of Montgomery County, made a few inquiries about the cost of mutton on the hoof and found that sheep meat was selling on the market for 8 to 10 cents per pound, while the price asked the county would have been more than doubl that amount. The result was a heavy reduction in some claims.

MEMORIAL.

In memory of our friend and teacher, Mrs. Jacob G. Danehower, who passed away January 8th, 1921.

Dear Teacher, how we miss thee,
In our Sunday School so dear,
Thou ha't labored, oh so faithful,
For many a fleeting year.

Miss thee, yes we sadly miss thee
From thy accustomed place,
Miss thy loving, helpful counsel,
Thy example of Christian grace.

Though we feel our loss most keenly,
As we bow to the Holy One,
Knowing our loss is but thy gain,
We say, "His will be done."

Surely in our Father's Kingdom,
Thou, a crown of life doth wear,
Heaven seems a little nearer
Since thou art dwelling there.

Thy noble Christian Character,
Shall live for years to come,
Until all who knew thee here,
Shall at last be gathered Home.

WOMEN FOR JURY DUTY.

Two Females Drawn on the Grand Jury.

Court Will Convene on Feb. 14, When for the First Time Women Will Be Called in the Panel—More Men Drawn

Miss Elizabeth Murphy, of Moore street, and Miss Mary Kierman, 1203 Locust, Norristown, will be the first two women of Montgomery county to sit on a Grand Jury. With the opening of criminal court, Monday Feb. 14th, they will assist the 22 men summoned for the same purpose, in passing judgment on the merits of all cases returned by magistrates for disposition by the riminal courts. They will also assist in the disposition of any bridge matters, public property or to the taxpayers which may be laid before them.

The names of the men and women who are to do duty as jurors during the February sessions of both criminal and civil court were drawn from the jury wheel by Sheriff Jacob Hamilton, in the presence of Jury Commissioners Walter Jenkins and Francis Fryer, the registration being made by their secretary, Mrs. Katherine Podall.

The first in order was the drawing of the names of the grand jury, for which 24 names are selected. The 22 names drawn were those of men, where upon the sheriff was chided for his apparent partiality to the men. When the 23rd slip was withdrawn, it proved to bear the name of Miss Murphy, and the next was that of Miss Mary Kierman.

The list of the trial jurors for the criminal court for the same week was then proceeded with. Of the 72 names drawn, 16 are those of women. Of the list of names drawn for the first week sessions of civil court, beginning Monday, Feb. 28, 17 of the 72 name are those of women, while for the second week of the civil court, beginning Monday, March 7, 21 of the 72 names of that panel are those of women were drawn from the wheel for the several weeks of the February courts. The complete list of names of all of the jurors is now being transcribed and will be published Monday.

Miss Murphy, who is a clerk in the Kennedy book store, East Main street, was much surprised, a few days ago, when she learned that her name had been placed in the 1921 jury wheel. She was still more surprised, however, on learning that she had the honor of being the first woman actually called for jury service. She is in no wise timid about the matter Likewise, Miss Kiernan, who has no hesitancy of being able to fill her call with credit.

In the cae of trial jurors who may be summoned for service it will be remembered that in Philadelphia courts attorneys for accused availed themselves of the privilege of challenging perons called on a particular proceeding, so that it may be that not all of the woman summoned for the trial courts may actually be given the opportunity of sitting in judgment of cases heard before the judges.

In the case of grand juror, the situation is somewhat different. There prevails no challenge, ex cpt in a murder case, when a bill for indictment in laid before the Grand Inquest, in which instance the accused has the right of challenge, if his interests so demand it. This is a step that has not developed in this county. Misses Murphy and Kiernan, therefore will fulfill all of the duties, unless they are excused by the court.

H. G. Moyer Retires From Bank Presidency.

First National Band of Perkasie has elected Charles B. Weaver president to suceed ex-Senator Henry G. Moyer, who has served ni this capacity since its organization twenty years ago.

The newly elected president has also been identified with the banck since its orangization and has been a director for nineteen years. He was a former preacher, having served Keller's Nockamixon Reformed charge until a year ago when he retired from the ministry and moved to Bethlehem. He will make his permanent residence Perkasie in the rear future.

Senator Moyer's retiring from the bank presidency marks the passing from active business life of one of Perkasie's foremost citizens. Few persons enjoyed the confidence and respect of as many friends as did Mr. Moyer. Hundreds sought his counsel before taking final action on business affiairs.

While on a business trip to Doylestown seven years ago he was stricken with a severe nervous breakdown from which he never fully recovered. He was, however, kept at the head of the bank until this time against his wishes. When his wife died more than a year ago he determined to retire and enjoy a well earned rest. He is spending this winter with his son-in-law and daughter, Rev. and Mrs. Clyde Black, Rushville, Ind.

The remarkable success of the bank was due largely to his keen business sense and good judgment. From a humble beginning the bank enjoyed a healthy growth until the present time its resources exceed $1,500,00.

Other officers elected were as follows: Vice president, Reuben J. Freed, Richlandtown, secretary, Samuel F. Stover, Perkasie; assistant secretary, W. Elmer Savercool; cashier, Walter K. Terry; assistant cashier, T. B. Crouthamel.

Those young men interested in the coming minstrel show of the Wissahickon Fire company will please meet at the fire house again next Tuesday evening, when parts will be assigned and preliminary practice begun for the event which will probably be held early in March.

8-Year-Old Girl Burned to Death.

Four children slipped away from the homes in Edge Hill Sunday, went to a quarry near the town and started a bonfire. One of them, Josephine Marone, 8 years old, ventured near the blaze, and her clothing ignited. Her three companions ran away, screaming.

A short distance away, Fire Chief Whittam and other members of the Edge Hill Volunteer company, were in the fire station, and, hearing the screams, came to the rescue.

The girl was taken to the Abington hospital, where she died shortly after.

—Slipping on linoleum in her kitchen Mrs. William P. Ely, of Doylestown.

Heizman was given a hearing before the Justice of the Peace Urban one day last week and was obligded to pay a fine and cost amounting to $19.50.

The Colony Club of Ambler is planning an afternoon of unusual interest for its members and friends for Wednesday, January 26th. At the beginning of the club year a music department was organized by Mrs. F. W. Foedisch, chairman of music. Its object it to create an enthusiasm for, and introduce music into the club and in Ambler, musical extension being one of the big interests of the Matinee Musical Club, of Philadelphia. The latter has very kindly offered to send to the Colony Club a most delightful program for the 26th. The program will consist of such artists as Emily Fricke Lesher, pianist; the Women's string quartet and others including a vocal soloist to be announced later. Tea will be served by the Colony club.

J. Rex Dager and J. Clayton Reed paid a visit to Robert A. Turner at Briarcliff farm, Pine Plains, Duchess county, N. Y. They left Ambler on Jan. 10th at 4.30 a. m., motored by the way of the Delaware Water Gap, Port Jervis, then to ferry at Newburg, up to Pouughkeepsie, and on to Briarcliff arriving at 4.30 p. m. the same day a distance of 226 miles. Messrs. Reed and Dager had wondered in their minds what attracted Mr. Turner to New York state, but upon arriving at Briarcliff farms, much to their surprise found a most fertile and beautiful section of country where all crops can be grown and matured equal any section that Mr. Dager had ever witnessed. Alfalfa grows like a weed, barns were full of alfalfa, hay silo filled with silage, and pastures of excellent quality. They spent a day looking over only three of theunits, A, B and C, where they found foundation herds at A of 150 Short horns, all red and roans of the best type; at B, 180 head of Hereford breeding heifers and 85 feeding steers; at C, 65 head of Ayrshire heifers, and about 150 Durve hogs are being raised. The feeding stables on A. B. and C are 500 to 600 feet in length with troughs for silage and racks for hay. Attendants drive through the stables with a load of hay and distribute it along the racks, and come along with a load of silage the same way. The cattle are in fine condition and the weather is about the same as here. Messrs. Dager and Reed returned to Ambler with a favorable impression of Mr. Turner's new undertaking.

In response to a large number of inquiries caused by the cool whether of Tuesday last, Dr. Mattison gives public notice that while the weather of the past few days may have seemed cold to some people, Loch Linden is not yet frozen over, owing to its waters coming from numerous springs along the north wall of the lake, which aer naturally about 54 degrees when they pour into the lake, so that it will be sufficient ice to allow skating upon Loch Linden.

Mr. John L. Doane, of the Ambler School of Horticulture, was the speaker at the meeting of the Colony Club, of Ambler, on January 10. After a short wedding trip, Mr. and Mrs. Galloway will reside in Philadelphia.

The Wissahickon Fire company was called Sunday evening soon after 8 o'clock to render assistance at the fire on the property of George Weidner, near Chestnut Hill. A large force of workers under Chief Hayden responded, and the company gave good service. No fire plugs being available the several companies were obliged to pump from the Wissahickon, which was done by hooking together and pumping from the creek through hose and then through another engine to the fire. Several lines of hose were thus run and most excellent work was done in saving the nearby buildings to the blaze which was confined to the original building. The engine of the Ambler company was in continuous service for three hours and performed admirably.

Wonderful efficiency was displayed by Corporal Haines and his men of the local state police last Sunday night. At about 8.15 o'clock the robberies that took place at the homes of Mrs. Felt, on Hendricks street, and John H. Morris, on Mattison avenue, were reported to Corporal Haines within one hour one of the self-confessed guilty parties was taken into Custody by Private Boben, and before morning another accused of the robbery of these homes was apprehended. Ever since early last fall there have been, from time to time, a number of the business places, located in the vicinity of Main street and Butler avenue, entered and robbed. The first reported to the police was the robbery of the cash drawer at the Main street garage. Later Joseph Angeny's drug store was entered, and some time afterwards Charles M. Shull's cigar store was robbed. The robbery at Clarke's hardware store occurred later. For a time these robberies ceased with the exception that at the Main street garage tires and tubes were stolen, it is charged. It will be remembered also that in December, 1919, the cash register at the Keasbey and Mattison company's garage was robbed of a sum of money on top of these robberies the state police were notified that other nearby places had been entered. When notified of the robberies on Sunday night Corporal Haines placed Private Boben at the railroad station, while he and Private Bradley made investigations in other directions. Between 9 and 10 o'clock Michael Tamborino, 17 years of age, residing in West Ambler, while attempting to buy a ticket for Philadelphia, in payment for which he presented a $5 bill, was placed under arrest and taken to the office of the state police, where later he was questioned by Corporal Haines, and on breaking down he confessed to the robberies of Mrs. Felt's and Mr. Morris', and at the same time implicated Joseph Piper also 17 years of age and residing in West Ambler. Piper was arrested at the Main street garage, where he was employed and some time afterwards before Justice of the Peace Urban and in the presence of the police and a number of his victims Tamborino ad Piper related the most woeful story of crime that was ever listened to by local authorities. Piper acted as spokeman for the two and he told how they entered the places they robbed, but the greatest surprise came, which stamped the two as juvenile pastmasters in crime when they told of the robberies they committeed in Conshohocken. Piper said that on the night of December 16, they hired a horse and wagon and drove to Conshohocken and with the aid of a screw driver and two irons used for putting shoes on rims, they forced the rear window of a tailor shop, where they took several bolts of cloth, two suits and an overcoat. On the night of December 29, they returned to Conshohocken and robbed to postoffice and cigar or candy store adjoining, securing number of stamps, a box of cigars and other articles, besides a sum of money. Just before he was taken way or while on his way to the county jail Piper said he forgot to tell that he also robbed the cash register at the Keasbey and Mattison company's garage in the night of December 13, 1919. Piper is a colored boy who has been well thought of by local residents and always created much sympathy because several ears ago his mother was found murdered in the woods opposite Cruse Kemper company's work. Tamborino is an Italian who has a police record, but was always considered as being feeble minded. Local authorities had him examined recently by two Ambler physicians for the purpose of having him committed to the State hospital for the insane, but one of the phsicians declared that the boy's mind is not sufficiently unbalanced to commit him and that in his opinion he is crafty and criminally inclined. The boys were committed to the Montgomery county jail without bail for a further hearing. On all sides Corporal Haines and his men are being complimeted for their splendid work in rounding up these boys.

Beiler's Ice Cream

in the making

This is the second of a series of Articles in which is explained the various processes in the making of Beiler's high grade, Delicious Health Food.

Pasteurization--Purification.

The method of pasteurization applied in preparing the cream used in BEILER'S Ice Cream is quite modern. It has important features, one of which is not generally used by others, but is of too great importance to be overlooked in the manufacture of high grade Ice Cream.

In this method of pasteurization the cream is held under temperature high enough to check the development of any bacteria which otherwise might give an undesirable flavor or be unhealthy.

The special feature connected with this method of pasteurization is the process of aeration. Raw cream usually carries with it the original animal odor. Some of this odor escapes more easily when the cream is at a high temperature and some when it is cooling. This is done in two ways: First, by pumping fresh air into the cream at the time it is being held at a temperature, and secondly when cooling same, it flows through the air over a cooling machine in a thin sheet.

In our process this odor is largely extracted, which in turn imparts a very fine aroma,

The results show a very much improved product over the raw cream. The pasteurization and aeration are given serious and careful attention in the preparation of the cream used in BEILER'S Ice Cream.

At the reent monthly meeting of the Ambler school board Treasurer Edwin H. Faust presented a very interesting report to the effect that there was on hand a balance of $4808.-17, and during the month he received from the state the appropriation due amounting to $1852.50, and in addition the following tuition bills were paid: Whitpain township, $1582.96; Horsham, $235.76; Whitemarsh, $25.26; Robert Hamilton and R. K. Kibblehouse, $37.89. Besides these amounts Tax Collector E. C. Scott turned in $648.72, making the above total together with the balance on hand of $9191.26. Orders amounting to $3234.15 were paid, which left a balance of $5957.11.

The program at Ambler lodge room will be as follows: Music by band of Camp 231, of Glenside, four pieces; General singing under directions of Harry Shuster, pianist; the Colonial Girl, Miss Sarah Jones; address of National President Gabriel N. Moyer general singing; address Commander's Chief, Samuel A. Sringer, Jr., up to date songs, Miss Maria Wilson; address, State secretary C. R. Helmes; Adelphia quartet. This will make a very pleasant evening for the members of the order in the town and vicinity, and also for those who wish to become members.

Two local boys had their parents much worried one night last week when they were missing at the time of the evening meal. The older folk ascertained that the lads had been playing about the streets and the freight yard and they also learned that a north-bound freight train had stopped at Ambler about 6.30. Not finding any trace of the lads in Ambler, on telegraphic notice the freight train was searched at Quakertown. Needless to say the continued absence of the boys very much upset the families, but about 11 o'clock the boys turned up, tired, hungry, freightened and crying. They confessed they had played about the streets until 6 when one of them proposed they walk to North Wales, which they did along the railroad, getting through the Gwynedd tunnel and in safety past the watchman, whom, they state was asleep. On reaching North Wales and having no other purpose they back-tracked on the trolley road, and about Springhouse were piked up by an Ambler taxi driver, who helped them reach their homes.

Many of our business people are very much aroused over the manner in which their businesses have been appraised by the special appraiser appointed by the auditor general at Harrisburg. "The way this special appraiser is doing his work is nothing more than a farce," said one business man who took up his case directly with the auditor-general's office. "The man comes into your place," (fi .:. some dealer,) finds out obtain your signature to a form, that if wrong will be adjusted at the county treasurer's office at Norristown, but when the employes of the treasurer's office are questioned regarding the matter you are referred to the appraiser." The injustice of the appraisement that is now being made is shown by a notice received by one dealer in Ambler who does about $2000 worth of business a year, yet he has been appraised as doing business amounting to $10,000. In fairness to Treasurer Bardman and his deputy, William Haginbottom, it may be added that every assistance is being given business men of the county who have been wrongly appraised, and an adjustment of the whole matter is coming.

County Commissioners' Office Force.

The county commissioners have completed reorganization, which was begun on Monday, Jan. 3, by the election of Roy A. Hatfield as President and Simon Y. Bready ,vice president. Harold B. Bechtel, of Pottstown, was promoted from transcriber to mortgage clerk, a new position created to handle mortgage records for purposes of taxation.

The following transcribers were elected: Charles H. O'Neill, Wallace J. Stroud, Geo. K. Yeakle and Philip Beaty, of Norristown; John J. Knox, of Elkins Park, and Nelson C. Wilson, of Bridgeport. Wm. A. Ambler and Miss K. McAvoy were re-elected.

Daniel F. Stout was chosen to continue as county clerk, and Miss Edith Fetcher, of Jenkintown, is to be appointed as assistant county clerk, as well as stenographer to the commissioners. Amandus Snyder is also to be retained as a clerk in Mr. Stout's office, and Chief Engineer Finley was re-elected with the following staff of janitors: Henry Thompson, Edward Bahn, and Phillip Eckert. Miss Elizabeth Deaves, exchange operator at the court house, was elected for another year.

Two grey foxes were gotten one day recently in a fox hunt participated in by Game Protector Warren Fretz, of Doylestown; E. C. Bowden, Edward Slack and Dr. R. C. Magill, of New Hope, and Frank Magill, of Carversville.

They found Reynard on Cox's mountain and say it was fine sport.

Because of the damage which has been done to poultry and game birds by the Foxes, particularly in upper Bucks county sportsmen and farmers have been giving these destructive little animals an uncomfortable time.

Court Discharges Women from Jury.

Because no sleeping quarters are provided for women jurors who would, otherwise, have to stay out all night on murder juries of a mixed nature, a Philadelphia court discharged women from the panel.

Montgomery county women who are drawn this year for jury duty will have the same situation confronting them.

The county commissioners, officially know nothing about women on juries and have not been requested to make any special provision for them.

Our Pen Convict Bill for Year is $14,334.

It cost the county of Montgomery $13,334.72 last year to support convicts sent to the Eastern Penitentiary.

Seventy-three men were sentenced to that institution by the local courts, and, at the rate of 64 cents a day, fed and clothed. Of the 73 who were guests at the Pen during the year, 15 were paroled at various times, and three discharged.

Henry Fell Bequeaths Estate to Charities.

Hospitals of Philadelphia and Protestant Episcopal churches in America and England are bequeathed approximately $125,000 under the terms of the will of Henry Fell, formerly of Doylestown, who lived at the Union League, and who died December 22 in Atlantic City.

The will, admitted to probate in Philadelphia, disposes of an estate valued at over $209,000.

The Children's Hospital, Twenty-second and Walnut streets, will receive $30,000. Other bequests include $5000 to Hahnemann Hospital, $5000 to Jefferson Hospital, $3000 to St. Mark's Protestant Episcopal Church, Sixteenth and Locust streets, for chalice, to be studded by Mr. Fell's jewels; $1000 to St. Clement's Church, Twentieth and Cherry streets; $50,000 to the Nashotah (Wisconsin) House; $10,000 to the Society of St. Marfiaret, Boston; $20,000 to the Society of St. John the Evangelist, Crowley, England, and $1000 to St. Cuthbert's Society, London, England.

After naming several nieces and nephews of his father as beneficiaries, Mr. Fell directs that the residue shall be divided among the Hahnemann Hospital and St. Mark's church, Philadelphia, and the Order of the Holy Cross, in New York.

Marriage Announcement.

Announcement is made of the marriage of Miss Marie Kehr, of East Norriton, and Herbert Beattle, of Philadelphia, on Monday, January 3. The marriage ceremony was quietly solemnized in the parsonage of St. Paul's Lutheran Church on Oak street. The pastor, the Rev. Julius Hoeppner, officiated. Mr. and Mrs. Beattle upon their return from a wedding trip will live in East Norriton.

Likely to Be Permanent Casket Company Receiver.

In connection with the final hearing, January 10, of the receivership proceedings in connection with the Conshohocken Casket company, the court will be asked to make the appointment of Benjamin F. Evans, as receiver, permanent.

This is for the purpose of bringing about an equitable adjustment of the interests of all concerned, and the continuation of the plant with every indication that under careful management there will be no financial losses sustained, and that, eventually, the receivership may be discharged and the business resumed by the corporation.

Among the Missing.

George Rabolski, of Phoenixville, left his home in that borough on Sept. 22nd last and according to his mother has not been seen or heard from since. The mother, Mrs. Katherine Rabolski of 32 Clay street is greatly worried by what she terms the unwarranted absence of her son from her home.

Driver Freed.

Allen Reed Delp, of Spring Mount, was exonerated by a Coroner's pury in city hall, Philadelphia, recently, in the death of Wolstan Dixey, 1208 North Broad street, Philadelphia, December 22.

Delp drove a milk truck which ran down Dixey at Thirteenth and Thompson streets, Witnesses testified it was raining and Dixey carried an umbrella, which kept him from seeing the approaching truck and stepped in its path.

Odd Turkey This.

Clyde Smith, of Glenside, was awarded a turkey at a pastime event in the passenger traffic auditors' office of the Reading Railway where he is a clerk.

He already had one at home, but he took the new turk anyway. It was all wrapped up when he got it, only the head and legs protruding from the bundle.

"Looks like a hefty bird," remarked Smith's seatmate on the train going home.

"Yours for $2.50," offered Smith who didn't know the man. "I've got one. Don't need this."

"Done," said the stranger, and the turkey changed hands. Smith told his fellow clerks about the deal next morning. The collapsed against their desks.

"Hot patootie!" exclaimed the raffle promoter. "That was a fake turkey," man, the body was wood paper, and rags. Only the head and legs were real."

Company buys R. R. Land.

The Freed Heater company has purchased all of the unimproved tract of land from the Philadelphia and Reading Railway company, lying west of the road tracks and south of Main street. It was not definitely stated what use the company will make of it ground but it is understood that it will be occupied, in part by a new industrial plant.

County Firemen.

Because the date of the Montgomery County Firemen's association fell on New Year's day the meeting was postponed until Saturday, January 8. The session will be held at the home of the Bryn Mawr Fire company.

The meeting will be important and the chief of the bureau of fire protection, Harrisburg, is expected to address the Association.

During the meeting a demonstration of a new pumper will be held. After the meeting the visitors will be entertained by the Bryn Mawr company.

Wage Readjustments are Made in Bristol.

When Bristol industries resumed operations after the Christmas holiday period workers were confronted with announcement of readjustment of wages downward.

The exact cut in wages varies with the various workers and it was not quite possible at several of the industries to give it in terms of percentage. This was true at both the William H. Grundy Co. and the Warner J. Steel ills where the revised wages are approximately the same.

At the Grundy company it was stated that operations had been resumed in all departments but that it can not be stated how long there will be a continuance of activities for all. The Stel Co. mills resulted in some departments.

At the Rohm and Haas chemical worlds in South Bristol onnouncement was made of a ten per cent. reduction in wages affecting all the employees There are at present only about 40 at work in this plant which is approximately 40 per cent. of the normal working force. These are working only 32 hours per week instead of the normal 54. The reduction is effective with January 1.

—Mr. and Mrs. Lewis Detwiler, of Norristown, celebrated their golden wedding.

GROWING IMPORT BUSINESS.

Its Rapid Expansion and Effect on Our Country

Europe Has Gone to Work in Earnest and Is Now Flooding Our Markets, Having Greatest Effect on America's High Wages.

It is difficult for our Ambler workmen perhaps to understand just why the tide of abnormal wages has come to a standstill, and factories all over the country are closed, starting up again only under reduced wages. The day of excessive remuneration for labor has passed, for the war-ridden and exhausted countries are going to work. Work, actual work, is the keynote of all these countries, and under the Wilson tariff which he calls "The New Freedom," unless it is quickly changed, this country will be deluged with the products of starving European workmen.

Look at the present figures reported by the National City Bank of New York for the 10 months for which records are now available just twice as much in value of merchandise imported from Europe as in the corresponding months of 1919 and four times as much as in the same months of 1918.

The value of merchandise imported from Europe in the 10 months ending with October was $1,078,000,000 against $543,000,000 in the same months of 1919 and $272,000,000 in the same months of 1918. Our chief imports from Europe, prior to the war, were manufactures and especially luxuries and certain manufacturing materials which the European countries had brought from their colonies to their own ports before re-shiping them to the United States. During the war, however, the colonies found it more convenient to ship their merchandise direct to the U. S. and as to the manufactures which were accustomed to draw from Europe, it was scarcely expected that her factories would be able to so quickly resume the outturn of any considerable surplus.

In both of these lines, however, the return to pre-war conditions has been rapid. Most of our manufactures imported are drawn from Europe, and manufactures show in the imports for the 10 months ending with October, 1920, a total of $1,460,000,000, over $844,000,000 in the same months of last year, while manufacturing material shows in the 10 months of 1920 $1,600,000,000 against $1,324,000,000 in the same months of 1919.

The principal articles forming the group "manufactures ready for consumption," of which the total imports in the full year will be nearly a billion dollars, are chiefly European. Of cotton cloths, the imports in the 10 months of 1920 are $47,000,000 against $10,00,000 in the same months of the preceding year and $34,000,000 worth of this came from Great Britain, $9,000,000 from Switzerland, $2,000,000 from other European countries, and a little less than $2,000,000 from Japan. In laces and embroideries, of which Europe sends $15,000,000 worth against 6 1-2 millioans in the preceding war, over 1-3 was from France, another third from Great Britain, and the remainder from other European countries, especially Switzerland. The total value of cotton manufactures imported into the United States was, in the 10 months ending with October, 1920, $123,000,000 against $35,000,000 in the sne onths of the preceding year and probably 9-10 of this is European. Other important articles chiefly of European origin, imported in the 10 months are art works $22,000,000 against $13,000,000 in the same months of last year; chemicals $47,000,000 against $24,000,000 in the same months of last year; wool manufactures $51,000,000 against $13,000,000; silk manufactures, of which about 1-2 come from Europe, $70,000,000 against $36,000,000; iron and steel manufactures $43,000,000 against $20,000,000, and manufactures of fibers, of which about one-half are from Europe, $140,000,000 against $73,000,000 in the same months of last year.

In raw manufacturing material, Europe is rapidly returning to her pre-war custom of accumulating the products of her colonies at her colonies at her own ports before sending them to the United States. Of Egyptian cotton, Great Britian has this year sent us $10,000,000 worth against $5,000,000 in the corresponding months of last year; of India rubber, $43,000,000 worth against $16,000,000 in the some months of 1919, and only $4,000,000 in the corresponding months of 1918, while Netherlands has sent us nearly $4,000,000 of rubber from her East India colonies as against a quarter of a million one year ago and nothing two years ago. Of pig tin, Great Britain has sent us $13,000,000 worth as against $8,000,000 in the same months of the preceding year.

Of the $68,000,000 worth of diamonds and other precious stones sent us, chiefly from Netherlands, Great Britain and France ,all are, of course, the product of other parts of the world but drawn to Europe by the governments controling the area of their production and sent thence to the United States after passing through the hands of European workmen.

Bad Cold and Cough Cured by Chamberlain's Cough Remedy.

Several years ago C. D. Glass, Gardiner, Me., contracted a severe cold and cough. He tried various medicines but instead of getting well he kept adding to it by getting fresh colds. Nothing he had taken for it was of any permanent benefit until a druggist advised him to try Chamberlain's Cough Remedy. He says "I was completely cured by this remedy and have since always turned to it when I had a cold and soon find relief." jan

Farm School to Register New Class.

The National Farm School, located at Doylestown, is now receiving applications for admission to its new Freshman class, which is to be admitted to the school in March, in order to begin its studies with the opening season, in the spring of the year.

The National Farm school offers a wonderful opportunity to worthy, energetic young men, irrespective of creed, giving them a three-years' training in practical and scientific agriculture, free of all charge to them for tuition, board, lodging, laundry and other necessities.

The school comprises 500 acres of choice land, is equipped with pure bred and grade dairy herds, horses, barns, piggery, poultry, farm machinery, greenhouses, library and laboratories. The studies are in charge of an able corps of instructors, and the household is in charge of a matron.

The course is open to boys between the age of 16 and 21 years, who have completed a grammar school education or who have an education equivalent thereto, who are normaly, mntally and physically fit, and who have a desire to follow agriculture as their life's work.

Any young man, having the above qualifications, who desires to register for the new class, may obtain registration blanks by addressing Morris A. Kaufmann, chairman of the committee on admissions, either in person or by mail, at the office of the School, 497 Victory Building, Philadelphia, Pa.

For a Persistent Cough.

Some years ago H. P. Burbage, a student at law in Greenville, S. C. had been troubled for a long while with a persistent cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Having seen Chamberlain's Cough Remedy advertised he concluded to try it. "I son felt a remarkable change and after using two bottles of the small size was permanently cured." jan

Clymer's Store Firm Has Two New Members.

Robert L. Clymer's department store, Doylestown, which the mercantile appraiser's records show has done the largest amount of business in Bucks county for several years, broke its 1919 record by $53,000 in 1920 and began 1921 with two new members in the firm.

Mr. Clymer announces that Oscar Haney, a well-known business man of the county, who has been connected with the store for a year, and Paul Mills, an enterprising employe of the store for a number of years, have been taken into the firm.

"Mr. Haney and Mr. Mills are coming into the firm in order that we may give better service and also to relieve me of some of the responsibility," explained Mr. Clymer on Monday.

Last year the store's sales amounted to $303,992.

Not If As Rich As Cresus.

If you were as rich as Cresus you could not buy a better remedy for constipation than Chamberlain's Tablets. They are easy and pleasant to take and when the proper dose is taken produce a mild and gentle effect. They also strengthen the digestion. jan

Lansdale Wants Protection.

Because of recent robberies at Lansdale residents of the borough suggest the revival of a plan for protection that dates back to poineer days in this country.

It is suggested that the residents agree on some call to be sounded in case of an outbreak of outlawry at night, and that, on the sounding of this signal, a body of volunteers, properly armed, would respond at once.

When You Are Bilious.

To promote a healthy action of the liver and correct the disorders caused by biliousness Chamberlain's Tablets are excellent. Try them and see how quickly they give you a relish for your food and banish that dull stupid feeling. jan.m

Suicide or Accident.

William E. Schwartz, 28, of 1437 Pine street, Norristown was found lifeless, Thursday afternoon, in the garage of his father, former sheriff Charles Schwartz, West and Highland avenues, Jenkintown, with a bullet in his brain. In his hand was a 32-calibre revolver, which, a few minutes before, he had procured from his father's home, with the statement that he intended to kill rats infesting the garage and adjacent chicken house.

—John Swartley has been appointed burgess of Chalfont borough.

—Five geese, worth $40, were stolen from William Boehret, of Chalfont.

—The Nagle Steel Co. of Pottstown starts a 10 to 25 per cent. reduction in wages next Monday.

Drop Opposition to Annexation.

The Upper Merion school board will not oppose the contemplated annexation of the village of Swedesburg ot the borough of Bridgeport. The opinion of Solicitor Anderson is that as a majority of the property owners had signed a petition, and the Town Council of Bridgeport has passed in favor of it, the board could do nothing. The school district will lose a considerable amount of taxes because of the annexation. C. W. Mackey, of Swedeland, was chosen a member of the school board to fill the vacancy caused by the resignation of George Hurdle, of Port Kennedy.

Watson "Kids" Congressman.

Congressman Henry W. Watson, of Langhorne, in a brief speech on the floor of the House, suggested that the appropriation for the maintenance of the grounds of the White House be sufficient to repair the iron fence now encircling the executive mansion.

In a humorous tilt with other members he protested that he did not propose the additional money for repairing "political fences."

—The total assesed valuation of real estate in Reading is $95,474,248, an increase of $28,767,860.

Health Officer Charles E. White has received notification of his re-appointment as local registrar of vital statistics for Norristown, East and West Norriton, Lower Providence and Whitpain townships.

Conshohocken Plant Starts Work.

The textile mill of the H. C. Jones Company resumed operations on Jan. 10. The employes have accepted a reduction in wages of 25 per cent. James Lees and Sons company large plant which has been on a three-day-a-week schedule are on full-time, with a 20 per cent. reduction in the wage scale.

Claps Basket Over Highwayman's Head.

One night recently when Edward Wertz, of Sixth avenue, Conshohocken was walking down Harry street, a man stepped out of the shadow of a post and pointing a revolver at him, demanded he hand over his money. Wertz has a basket on his arm, which he put to a good use, and in place of handing over his money he pulled the basket down over the hold-up man's head and fled down the street. A search was made of the neighborhood later, but no trace of the burglar could be found.

While Herbert Brandt was walking down on Hallowell street, two men approached him and asked for a match, then if he had any money. He answered "no" and immediately received a blow in the face which sent him staggering against the fence. The men escaped and Brandt has a badly swollen face today.

It is the opinion that these and other hold-ups are the work of the same gang of men. Descriptions given by victims bear out the assumption.

Five Bungalows Lost in Perkasie Park Fire.

Five bungalows at the Perkasie park, which is closed for the winter, were destroyed by fire which threatened the entire park early Saturday morning, Jan. 8. The blaze is of unknown origin, but there is a belief that the fire was either started by an incendiary or by some person who broke into one of the cottages to rob it.

Three of the frame bunagolws were completely destroyed and two others are badly damaged. The speedy response of the Perkasie fire department checked a conflagration which bid fair to gut the entire park.

Many of the bunaglows at the park are owned by Philadelphians who occupy them during the summer months.

Camp meetings and summer assemblies are held at the park.

Robbed By Highwayman.

Isaac Shaffer, a prominent mill operator of Conshohocken had a thrilling experience with two hold-up men, on the main street of the borough, about nine o'clock last night. Shaffer lost his watch, other jewelry and a sum of money.

He had reached the gates of the large mansion occupied by J. Ellwood Lee, at Eighth and Fayette streets, on his way home, when suddenly two men stepped out from theshadows of the huge posts in the glare of the street light. Shaffer saw the glimmer of a pistol in the hand of one of the men. One stepped to the of Shaffer grasped him by the throat, while the other pressed the weapon against him, saying he would shoot if any outcry was made. Shaffer lost no time in raising his hands. The men quickly searched their victim's clothing and, as they left, ordered him to proceed without making any outcry. They then disappeared in the dark.

FORT WASHINGTON NEWS.

Items of Passing Interest Condensed in Short Paragraphs.

Fire Company is Flourishing Blast Wrecks Windows—Shortage of Coal is Acute—Agitation to Light Upper Dublin—Personals.

On Tuesday evening of last week blast was set off at the E. F. Roberts stone quarry here, the force of which shattered six windows in the Masonic hall property, cracked others, broke one in the hotel building, and several in the office of the Arbuckle-Gordon company. Mr. Roberts says only 450 pounds of dynamite was used in the blast, although he alleges he has at times fired 600 pounds at one time. He is inclined to the belief that despite the fact it was marked with the same explosive test as usual, the charge was of higher power and consequently the greater force. Another factor is that the charge of last week was fired on the very bottom rock bed of the quarry. Strange to say windows in buildings close to the quarry were not shattered.

While walking from her home on Highland avenue to Fort Washington station, one day last week Miss Eleanor Morgan's pocket book became open and she lost her money and her railroad ticket. The latter, however, was returned to her by the finder.

The William Boulton Dixon Post No. 10, Whitemarsh, will hold a benefit at the Ambler opera house on Tuesday evening, January 25th, at 7 and 9 o'clock. The program is a very good one and the post is expecting a very large turnout, and this will be one of the largest affairs Ambler has ever seen. The affair is in charge of James Gordon Kittson, Fort Washington, and tickets may be procured from him. The program includes H. B. Attorney Maxwell Strawbridge, of Norristown, has been suspended from practicing law at the Montgomery county bar for a period of three months on charges of unprofessional conduct. The opinion and order of punishment were handed down by Judge Swartz, who stated that it was a joint decision of Judge Miller and himself, only after a careful study of the situation.

Strawbridge was charged with conspiracy to cheat and defraud Edwin A. Scheetz, of Jeffersonville. The information was sworn to on October 14, 1919, and involved J. Jay Corson, a former well-known banker and real-estate man. It was alleged that, in order to collect fees, Strawbridge and the others conspired to foreclose a mortgage on Scheetz without giving the latter opportunity to make payment.

There was no hearing in the Corson cause, he was absolved from punishment when he agreed to withdraw from business in this county. J. A. Anderson, then District Attorney, placed the matter of Strawbridge's connection with the case before the Bar Association, and the board of censors found Strawbridge guilty of conduct unbecoming an attorney. The matter was appealed to the court and the judge's opinion confirms the finding of the censors.
